### ABBI

A steel U.N. (United Nations) Approved IBC (Intermediate Bulk Container) suitable for transporting diesel fuel on the highway. The ABBI is fully bunded to ensure environmental compliance with Pollution Prevention Guidelines (PPG2).

- Secure lockable access hatch to enclose pumping equipment.
- Direct access into the inner tank via the manhole for cleaning and inspection.
- Full load lifting eye and forklift pockets for ease of handling.
- Can be operated from ground level even when placed on truck beds.
- Internal baffles for safe towing.
- Available as a skid unit or mounted on a galvanised chassis with either highway approved or heavy duty site tow option.
